

Management Change at DASCOM Europe GmbH - Alan Cheung Takes Over

Ulm, March 1st, 2026

DASCOM Europe, a recognized manufacturer of printing solutions for business environments, announces a change in its management. Effective March 1, 2026, Alan Cheung will assume the position of Managing Director.

After twelve years as Managing Director of DASCOM Europe GmbH Holger Benke will leave the company on February 28, 2026, at his own request. Under his leadership, he established DASCOM Europe GmbH as a successful company and a key market player in the European IT sector.

"I would like to take this opportunity to thank all our partners for many years of trusting cooperation. The regular exchange and the joint development of our business relationship have greatly shaped and enriched over the years, and I look back on our collaboration with great appreciation. At the same time, I am confident that the DASCOM team will continue this successful path with dedication and partnership in the future," said Mr. Benke.

He is handing over the management of DASCOM Europe GmbH to Alan Cheung, who will continue the successful course set so far and further strengthen DASCOM Europe GmbH as a service provider and solutions provider for the professional printing market in the EMEA region.

Alan Cheung (47), in addition to his position as Vice Chairman of DASCOM Holding, will assume the role of Managing Director and will further advance the strategic direction of DASCOM Europe GmbH. With a strong focus on the African market, he also intends to intensify the company's efforts to support development and expand its presence across the region, strengthening partnerships and driving sustainable growth initiatives.

"I am very much looking forward to this new challenge and to leading DASCOM into its next phase together with the entire team," said Alan Cheung.
