

Thermal Printers

Superb Print Quality

DASCOM Thermal Printers – In many places indispensable

As a specialist in industrial business printing, DASCOM offers an extensive selection of robust and flexible all-round printers with the thermal printer models. Our thermal printers are used today in a number of different sectors including production facilities, hospitals and supermarket chains. The creation of shipping stickers, patient wristbands or production labels are the applications most suited to these printers.

DASCOM thermal printers are the perfect solution for maintaining the efficiency of work processes at the highest possible level, simplifying processes or simply working without disruption. Our printers cover all product areas, from desktops to the industrial sector.

Highlight at a glance

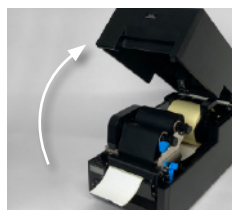

- Can be used as a thermal direct or thermal transfer printer
- Compact housing with low space requirements
- Flexible interface concept
- Easy handling
- Print speed up to 203 mm/sec
- 300 dpi models available
- Up to 500 m/day

DASCOM Easy System

Reliability, quality and above all functionality play an important role in DASCOM's products. In particular, the functionality and operation of the products must be easy for the user. To enable this, the DASCOM Easy System offers key advantages for the user:

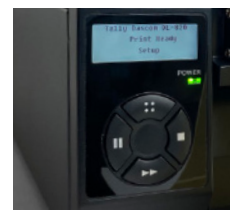

Easy-Open

Easy upward opening of the lid without losing additional space.

Easy-Lift/Easy-Load

The complete printing unit can be folded away to the side and the material to be printed can be inserted quickly and easily.

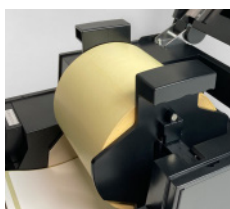

Easy-Menu

Entry field and display take the user quickly through the menu selection choices.

Easy-Connect

Various interfaces enable easy and quick connection to the operating system.

Easy-Paper

Large paper rolls with a diameter of up to 8" can be processed and the machine is guaranteed to work for long periods without user intervention.

Easy-Upgrade

All models can be upgraded with a peeler or cutter and different interfaces.

Solutions With Industry Leading Performance

	Print width	Print speed	Resolution	Technology	Workload	Emulations	Interfaces	
DL-200	108 mm	up to 127 mm/Sek.	203 dpi	direct thermal and thermal transfer	up to 300 m/day	ZPL II, EPL, TSPL	1x USB, opt. parallel/serial/Ethernet	
DL-210	108 mm	up to 152 mm/Sek.	203 dpi	direct thermal and thermal transfer	up to 300 m/day	ZPL II, EPL, TSPL	1x USB, opt. parallel/serial/Ethernet	
DL-310	102 mm	up to 102 mm/Sek.	300 dpi	direct thermal and thermal transfer	up to 300 m/day	ZPL II, EPL, TSPL	1x USB, opt. parallel/serial/Ethernet	
DL-820	108 mm	up to 203 mm/Sek.	203 dpi	direct thermal and thermal transfer	up to 500 m/day	ZPL II, EPL, TSPL	1x USB, 1x Ethernet, opt. parallel/serial/WiFi	
DL-820	106 mm	up to 127 mm/Sek.	300 dpi	direct thermal and thermal transfer	up to 500 m/day	ZPL II, EPL, TSPL	1x USB, 1x Ethernet, opt. parallel/serial/WiFi

ABOUT DASCOM

The DASCOM group was founded 1988 and is established in Hong Kong. As of today, DASCOM is a private conglomerate operating an array of business focuses. Located in Ulm (Germany), DASCOM Europe GmbH is the European headquarters and was founded in May 2009. We market the full range of serial, passbook, mobile and thermal printers under the "Tally" or "Tally Dascom" brand names.

DOT MATRIX PRINTERS

You may have thought dot matrix printers had had their day. Not so. In fact a growing number of organisations are returning to dot matrix printers, largely because of the cost benefits as well as robustness and reliability. DASCOM's range of dot matrix printers are well matched with Microsoft Windows applications, and highly compatible with other host operation environments including legacy systems such as Unix, IBM Mainframe and AS400 (iSeries), SAP and even the many MS-DOS applications still being used.

FLATBED PRINTERS

Flatbed printers are built for task critical situations, ideal for front office applications in retail outlets, travel agents, train stations, banks and doctor's surgeries where space is limited. They can be used for printing multi-part forms like invoices and delivery notes or cut sheet applications like printing receipts, prescriptions and documents - The Tally Dascom Flatbed printers keep transactions smooth and you will always get excellent results.

MOBILE PRINTERS

Printing requirements now extend beyond the warehouse and office into the delivery vehicles themselves. The need to print a delivery note or invoice at the same time as delivering your goods – complete with your company's sales and marketing message of the day – is fast becoming the norm. DASCOM's MIP480 provides wide format printing output. Multi copy provides for signatures as proof of receipt of goods. DASCOM mobile devices rigorously withstand the constant abuse of road vibration and environmental conditions guaranteeing years of trouble-free operation.

THERMAL PRINTERS

Of course, we're already well known for our extensive range of business-class printers. Now you can enjoy this same level of excellence with our range of thermal printers. Which is great news, because thermal comes into its own in so many sectors, and for so many applications. From shelf edge labelling in retail, to specimen tracking and prescription printing in healthcare, and labelling in the manufacturing, transportation, airline, chemical and pharmaceutical industries, thermal printing makes perfect sense.

CARD PRINTERS

DASCOM card printers reliably produce printouts on a large number of plastic cards and have advantages that set them apart from other card printers. Our business devices are designed for demanding applications and larger print runs that can be output on one or both sides.

The logo features the word "DASCOM" in a bold, sans-serif font. A red triangle is positioned between the "A" and "S".
